WHO IS MAYA?

Maya is a creative and adventurous young professional who lives life on the go. She works as a UX Designer for a fast-paced, innovative agency where she brings digital products to life. With a degree in Visual Arts and a passion for intuitive design, Maya also engages in side projects, including selling custom-designed cloth bags for rock-climbing gear, a hobby she enjoys every weekend with friends. When she's not designing or climbing, she finds inspiration sketching by Bali's beaches and manages all aspects of her life through her smartphone.
